
Proposed GMSS VISION STATEMENT

Vision Statement:

To provide quality, cost effective services and infrastructure to meet the diverse needs of Sturgeon County, while improving competitiveness and sustainability.

Purpose:

The GMSS shall provide applicants with a level of certainty, clarity and the requirements for developing lands within Sturgeon County, while ensuring the maximized lifecycle of our infrastructure and assets.

Process:

Through a collaborative process, every 5 years Sturgeon County will undertake a review of its GMSS, by engaging with Council, ratepayers, citizens and developers.

Outcome:

Standards that ensure quality, cost effective, leading/best practices for infrastructure life-cycle planning, while ensuring public and personal risk management and safety in the design and construction of both urban and rural residential, commercial, or industrial development infrastructure, that respects our history, diversity, and culture.
